- > Corporate News & Events

Dear Sir/Madame,

The factory of tomorrow is intelligent and fully connected. Classical mechanical engineering meets IT, opening completely new possibilities throughout the value chain. In this issue of **pack insights**, you can read more about our needs-oriented industry 4.0 solutions for the pharmaceutical and food industries, which will help you further boost your productivity.

We hope you enjoy it.
Your **pack insights** editorial team

> Food & Confectionery

Gently melting and fragile

Bosch modernizes 20 year-old Bag-in-Box Line of Ulmer Schokoladen for a gentle packaging of delicate chocolate décor.
