April 2014

Dear Sir or Madam,

Only four more weeks to go before Interpack opens its doors in Duesseldorf! The final preparations are in full swing, our exhibits are already on their way to Duesseldorf, and there's a palpable feeling of excitement as the teams gear up for the event.

We look forward to impressing you with our latest innovations and proven portfolio. Experience our machines in action on almost 3.000 square meters of exhibition space, from basic entry-level solutions to seamlessly integrated systems, all designed to meet the highest standards of efficiency, product safety, flexibility, and user-friendly operation.

Don't miss this opportunity to be in the front row when we unveil our innovations, to test your speed in our OEE Challenge, and to find out more about our solutions in face-to-face meetings with our specialists. We're looking forward to seeing you!

For more information on the [products that we will be highlighting at Interpack, read on!](#)

Our exhibition highlights from the Interpack 2014

The entire packaging machinery industry is in a time of change, the defining trends of which are still ever stricter regulations on production hygiene, constantly changing consumer requirements, and the imperative to cut costs. We at Bosch Packaging Technology are determined not simply to react to these changes, but to play an active part in shaping them.
