

TRANSVER beats the records

Since the takeover by ROTZINGER AG, TRANSVER has been performing outstandingly well: Besides the world-famous belt bends which constitute the core business, more and more complete belt conveying systems made their way to customers in the chocolate, biscuit and bakery industry, too.

Our recently built 180° belt bend with an outside diameter of more than 8 meters shows that there are barely any limits in terms of dimensions! This bend, too, can be equipped with belt deflection rollers of 10 mm diameter.

In order for us to provide our customers the best possible service, the TRANSVER team has been reinforced and counts now more than 30 employees.

You will find an overview of our products and services on our websites.
